idfer.esq@gmail.com

EDUCATION

Mechatronics Graduated
Instituto Tecnológico de Ciudad Juarez
Jun 2025 Degree in process

Admin Technician
Bachillerato Cbtis No. 128
2017 - 2020

CERTIFICATES

- Basics of Programming Oriented Objects - University of Michigan on **Coursera**
- Programming Foundations by Coursera - Duke University on **Coursera**
- **Solidworks CSWA Associate** - **Intelligy**

SOFT SKILLS

- Puntual & Responsible
- Team Player
- Adaptibility to Change
- Continuos Learning
- Initiative & Perseverance

LANGUAGE

- Inglés B2
- Intermediate – Advanced

EXPERIENCE

Manufacturing Process Engineer Intern **August /2024 - Present**
Robert Bosch Zaragoza
As a manufacturing process, I developed interactive dashboards and led improvement initiatives to optimize plant operations or maintenance preventive.

- Designed and implemented dashboards of KPI's, downtime, improvement ideas connected to databases using SQL, Python for data extraction and transformation from Tableau, Power BI, Oracle, MSSL.
- CCS Programming in Gaudi Environment
- Developed Excel Macros and pivote tables to optimize tool tracking and email alerts for motors maintenance predictive.
- Performed preventive maintenance on pneumatic and mechanical systems, support in corrective maintenance of stations and handled basic operation of Yamaha, KUKA and Staubli SCARA robots.
- Support to conducted downtime PDCA analysis, troubleshooting, and root cause investigation to optimize operational efficiency.

Manufacturing Process Assistant **August/2023 - July/2024**
Valeo Telematica y Acustica.
As a SMD intern, I provided comprehensive support in manufacturing processes, design, continuos improvement, and SMT equipment setup.

- Designed layouts with Solid Edge, Auto CAD and modified Core Tools, PFMEA; PCP, PFD, WI, IS, AV.
- Led Failure Analysis Workshops, QRQC, and PDCA.
- Maintained and monitored 5S, visual aids, Kaizen workshops, and process improvements.
- Performed setup and debugging of new programs with Gerber files in Laser Marking

Reference: Manuel Valdez (APU Manager) 656 2973573

HARD SKILLS

- **Software & Programming:** SolidWorks (CSWA Certified), AutoCAD 2D, G-Code with CNC, C, C++, Python, MicroPython, Programming Oriented Objects.
- **Data & Analytics:** SQL, Power BI, Tableau, APIS software, Oracle, SSMS
- **Vision Systems:** Vision System Keyence CV-X series, Cognex IV Navigator, In-sight Explorer, Scaners DataLogic.
- **HMI Design & Programming:** LabVIEW, Visual Studio, FactoryTalk, Siemens TIA Portal, Studio 5000, RS Logix 500.
- **Electrical Control:** Connection of three-phase and single-phase motors (127, 220, 480V), Reading electrical diagrams, sensors (capacitive, inductive, reflective, proximity, laser, NPN/PNP, limit switch, analog, thermocouples, float sensors, etc.)
- **Industrial Automation:** PLC programming (RSLogix 500, Siemens, Studio 5000), robotic arm operation (6-axis KUKA, STAUBLI, MITSUBISHI teach pendant control), laser marker programming and debugging (NUTEK)
- **Instrumentation & Measurement:** Use of multimeter, vernier caliper.
- **Manufacturing & Process Improvement:** 5S, 5 Why, Kaizen, Lean Manufacturing
- **Core Tools:** Control Plan, APQP, PPAP, PFMEA, PCP, PFD, WI, AV
- **Other:** Microsoft Office Suite, Minitab.
